

Addressograph (of relative)

Date: \_\_\_\_\_

Dear Sir/Madam,

**Study Title: UK Histiocytosis Registry (UKHR) IRAS 238319**

Please accept our deepest condolences for the loss of your loved one. We are writing to you because they had a diagnosis of histiocytosis or a related condition.

We would like to include your relative in the UK Histiocytosis registry (UKHR). In order to do this we need your permission, on behalf of them.

Before you decide whether you should take part or not, it is important for you to understand why the UK Histiocytosis Registry is being created and what it will involve. Please take time to read the information sheet enclosed and to discuss it with family and friends if you wish.

If you have received this letter by post then please return the enclosed reply slip indicating if you would like to take part and if you would prefer to give your consent to participate in person (and we will arrange for you to visit us), or by telephone/post.

If you have any queries, please contact either your relative's histiocytosis consultant, or a member of the UK Histiocytosis Registry team using the contact details below.

Yours sincerely,

(signed)  
(Principal Investigator)

Prof Matthew Collin

Matthew Collin  
Professor of Haematology Newcastle University  
Honorary Consultant Haematologist Newcastle upon Tyne Hospitals
